City's Name At Stake.

Dr. Frank W. Ballou, superintendent of public schools, declared that any one in the educational business knows that the District of Columbia has a very bad reputation throughout the country in regard to fraudulent educational degrees, and that there should be prompt legislation to correct the abuse.

"The fair name of our city, educationally, is at stake," Dr. Ballou asserted.

In reference to objections to the Board of Education passing on the qualifications and merits of institutions of higher learning, Dr. Ballou pointed out that while it was created to supervise public elementary and preparatory schools, it nevertheless is constantly called upon to determine the merits of institutions of higher learning in accepting or rejecting the degrees of applicant teachers in the District public cepting or rejecting the degrees of ap-plicant teachers in the District public

Bad weather conditions at Max-well Field, Ala., and along the route of their proposed flight to this city yesterday, caused them to postpone their flight to Washington. The War Department was notified of the delay and in turn notified the State Department, which revised a re-

State Department, which revised a reception arrangement.

Under the new program still subject to change and additions, the fliers are expected at Bolling Field between 4 and 6 o'clock this afternoon. They will be met some distance from Washington by a number of airplanes from Bolling Field, who will escort them there, where they will be received by French Ambassador Claudel, Secretary of War Davis, Secretary of the Navy Wilbur, Acting Secretary of State Olds, other officials, and members of Congress, as well as American aviators and Detective Oscar W. Mansfield, of the Tenth Precinct, late yesterday shot and probably fatally wounded a negro prowler in the hallway of an apartment house at 1434 Harvard street northwest. Mansfield said he had concluded a robbery investigation at 1422 Harvard street northwest, when he noticed the negro acting suspiciously in the doorway of the apartment house. At his approach the negro entered the hallway, where Mansfield accosted him. However, the Navy Band will play on their arival at the field, and the Army Band, at the embassy, and there will be appropriate military escorts at both places. The public is welcome to the ceremony at Bolling Field.

The remainder of the tentative program as announced by the State Department provides for a dinner to the filers by the National Aeronautical Association this evening at the Mayflower

Hotel, this affair being subject to postonement, however.

Will Visit White House

Tomorrow morning the French Ambassador will present the fliers to President Coolidge at the White House. They will next be guests at a luncheon given by Assistant Secretary of War Davison. Assistant Secretary of the Navy Warner and Assistant Secretary of Commerce MacCracken, at the Mayflower Hotel. In the evening a ball will be held for them at the French Embassy. Friday they will be given a luncheon by President Coolidge at the White House. They leave here for New York.

POLICE TAKE 34 MEN IN 2 GAMBLING RAIDS

Three Held on Charges of Setting Up Tables; Others Booked as Witnesses.

The newly organized police gambling squad yesterday descended on two al-leged gambling establishments, arrested leged gambling establishments, arrested three men on charges of setting up gaming tables, and took 31 persons into custody as Government witnesses. The squad struck first at 803 North Capitol street. Detective Richard Cox, first to enter, was admitted through one door and found himself in a small dark chamber. In a moment the chamber was flooded with a blinding light, and he was scrutinized through peepholes in a second door, he said. When he was finally admitted he opened the doors for other members of the squad. They arrested Joseph A. "The Negro and Patrlotism" was the theme of the second community center celebration of negro history week, held last night at the Francis Junior High School, with members of the home and school association and the Georgetown Civic Association in attendance. George T. Beason presided.

The negro's military contributions in American history, and peace-time patriotism reflecting the ideals of the World War, were discussed by Col. West A. Hamilton and Capt. Sylvester Epps. Hamilton urged the negro to demand as a measure of wartime sacrifice the broadest American citizenship possible. Mrs. Marle Madre Marshall gave a brief history of 50 American negroes of prominence since the time of the American Revolution.

Musical numbers were furnished by the West Washington Glee Club and the Community Center's Band. The celebration tonight will be held at the Randall Junior High School, where Leo S. Hansbury, of Howard University, will be the principal speaker.

lawyers and newspaper men, were admitted. Arguments were limited, however, to slightly more than two hours, and in less than a half court day the Chicago oil man had learned that he still was at liberty under \$1,000 ball and as yet not subject to further action on the part of the Senate.

Mr. Adkins in his argument to have the writ of habeas corpus made permanent—a motion which was meterly in the day by a petition filed on behalf of Maj. Peyton Gordon. United States district attorney, and David S. Barry, Senate sergeant at arms, to have it dismissed—covered three main points. He insisted that the Senate was without the power to issue a war ant of arrest to compel a witness to attend, where, as in this case, the witness had answered a subpena and appeared before the Congressional committee.

He argued, also, that since the Senate ate in the present features of the subject to the witness a power never conferred by law. Who was he to set himself up as judge as to the tissues pending, the things that he was willing to tell and those that he was unwilling to answer? He puts he was unwilling to assue pending, the things that he was willing to tell and those that he so subject to further action of the Senate, the only possible leg on which he has to stand. "Is it possible that a Senate committee may not find out the disposition of those bonds, part of which went to a former Secretary of the Interior. May it not demand every angle of this greasy scandal? Is it possible that because the civil and criminal courts have been unable to cross the better that the Senate is thereby stopped?

Mr. Wickersham in his reply contended that recalcitrance of the witness had been shown by his refusal to answer the Senate committee and that there was ample precedent for the action the Senate had taken in issuing the warrant of arrest.

Contends Action is Legislative.

He also belittled the argument that there was nothing of a legislative character in the Continental Trading Co., \$233,000 of which have been traced from Sinclair's Mammoth Oil Co. George H. Taber, Jr., of Rye, N. Y., former president of the Sinclair Crude Oil Purchasing Co., which contributed part of the profits to the Continental Trading Co. The Senate, Mr. Wickersham said, had acted in this "slimy mess" only to bring out the facts which civil and criminal courts had been unable to obtain because a foreign corporation was involved, and ventured the opinion that as the result of its inquiry it would have to decide what if any legislative action might be desirable to "avert any such thing as this in the future."

In reply to questions propounded by the court, Mr. Adkins expressed the belief that judicial inquiry should be had if it was the belief that any of the profits of the Continental Trading Co. not yet traced had been used to bribe public officials, and also told the court that it could not arrest a witness who refused to answer on the stand until he had been found guilty of contempt, a step, which Mr. Adkins pointed out, had not yet been taken against Mr. Stewart. Justice Balley also asked if Mr. Adkins did not think the questions which Mr. Stewart had refused to answer were relevant. The counsel for the oil man replied that in his opinion they exceeded the power which the Senate possessed and were therefore not

William S. Vare, Republican senator-elect from Pennsylvania, withdrew his representatives who had been counting ballots before the Senate elections subcommittee in the Vare-Wilson election contest. Vare complained that the six representatives selected by the Reed campaign funds committee were prejudiced in favor of Wilson.

Allegation is overruled.

Senator Waterman (Republican), Colorado, chairman of the elections subcommittee, overruled the objection and ordered the recount to go ahead. Last night the Vare forces were awating an answer to their request to the Colorado senator that they be permitted to increase their staff of observers.

The recount was begun with a flourish. A corps of photographers were adnitied to the large committee room on the top floor of the Senate Office Building as the first ballot box was opened. Many defendants are on trial in the ederal District Court, and involve a former Washington police/leutenant, a Washington police/leutenant, a Washington policeman, railroad conductors, porters and bootleggers.

Girls with every grace-but one. Women of so many, many attractions-and the single exception that spoils all. Why don't they sense the situation? Why docsn't someone tell them? To remedy obnoxious body odors and bad breath, you must recognize their cause. The trouble is deep-seated. Frankly, in the colon. Semi-constipation makes millions of systems septic. The bowels may move every day, but all the waste is not eliminated. The matter that remains is a slow poison. Yes, actual poison. It poisons the blood, and permeates the perspiration. It taints the breath. Not a pleasant condition to contemplate! But easy to correct: Nature is signaling her need of a litte calcium. Calcium works wonders in one's appearance, too. With the inner system sweet and clean, the complexion clears most marvelously. Eyes brighten. Teeth whiten. The tongue is no longer coated, even on arising. A new freshness and wholesome-

ness that gives you utter confidence in every contact with others. Perhaps you are septic, and don't know it. Try a tiny bit of calcium, and see! It may make all the difference in the world. Leave harsh, habit-forming catharties alone. You will never need them if you take an occasional calcium tablet.

IDEALS and SERVICE!

AN ideal became a reality when, on February 1st, 1843, "The Mutual Life of New York" issued its first policy. The business of life insurance on the mutual plan started in America then and there.

Priority in its field is not the Company's claim to greatness—age in itself is no great distinction. The Mutual Life began with high ideals of business conduct, which still prevail. It aims at quality and to be highly honorable in

In its relations with policyholders and their representatives The Mutual Life has an outstanding record; and it quotes with pride from the report of the last periodical examination of its affairs by the Insurance Department of the State of NewYork:

"A large volume of new business, selected according to the company's high standards was placed on the books. The rate of mortality has declined to a very low point and as a result it was possible to distribute to policyholders dividends according to successive increasing scales. Investments are particularly well secured. At the same time policy contracts have been liberalized and clarified, and the treatment accorded to the policyholders and their representatives has been eminently fair and just."

MR. GILLETT'S RESOLUTION.

What is the object of Senator Gillett in introducing a resolution whereby the Senate would respectfully suggest to the President the advisability of a further exchange of views with foreign governments in regard to American adhesion to the so-called world court? Does Senator Gillett think that the Senate and the President are now ready to abandon the position taken when the Senate adopted the reservations to which foreign governments objected? Or does he have information indicating that the foreign governments are now ready to accept the reservations?

Before the interested nations had rejected the Senate's fifth reservation President Coolidge said, on November 11, 1926:

While no final decision can be made by While no final decision can be made by our Government until final answers are received, the situation has been sufficiently developed so that I feel warranted in saying that I do not intend to ask the Senate to modify its position. I do not believe the Senate could take favorable action upon any such proposal, and unless the requirements of the Senate resolution are met by the other interested nations. are met by the other interested nations, I can see no prospect of this country adhering to the court.

If Senator Gillett has information that the President is now ready to ask the Senate to modify its position he should make the fact known. The people have a right to this information before the next national conventions are held.

In order to bring about American adhesion to the world court it will be necessary for one side or the other to surrender. The interested nations must accept the Senate's reservations or the Senate must abandon them.

Possibly Senator Gillett has concluded that the presidential campaign will be dull for lack of issues. Perhaps he merely wishes to "start something." He can have his wish easily enough, if he can show that foreign governments are now willing to accept the Senate's fifth reservation, or that the President is willing to ask the Senate to withdraw that reservation.

THE JAPANESE ELECTION.

The general election in Japan, set for the 26th of this month, will be of interest to political students largely because for the first time in the history of the empire almost universal manhood suffrage will prevail. Some 8,000,000 voters will be added to the number that has hitherto held the franchise.

Naturally many of the elder statesmen regard the experiment with some anxiety. Despite the progress that Japan has made in the last 60 years, at a rate which can only be described as marvelous, the aristocratic theory is still strongly entrenched among the nobility and more prosperous classes. And yet these elements have been willing to risk what some of their numbers must feel is a hazardous step indeed.

Every precaution has been taken to regulate electioneering methods and safeguard the voter against improper influences-a peril not altogether unheard of in this country. It is all the more necessary in Japan, where the vast majority of the population, including those who now possess the voting power, have an instinctive deference to the wishes and views of their "elders and betters." In all likelihood these wishes and these views will prevail for a long time to come in the remoter provinces of the empire. Nevertheless, it wil be a stirring sight for believers in democracy everywhere to see, on February 26, about 8,000,000 voters march to the polls to elect representatives to a parliament which will henceforth be truly representative.

CITY AIR.

As the result of an investigation conducted by Howard C. Murphy for the American Society of Heating and Ventilating Engineers, Boston is now declared to be "the cleanest city in America." Mr. Murphy and his assistants took samples of the gir in 24 of the larger cities of the country and carefully analyzed their contents. This was accomplished by what is known as a "dust counter," which is a subtle instrument said to combine the qualities of a bicycle pump with a magnifying glass. The pump deposits the dust on a glass slide, and the magnifying glass enables the observer to count the particles within that given area.

Boston air was found to contain but 5,360 particles per cubic foot, whereas unhappy St. Louis, at the other end of the scale, groans under 17,600. Cincinnati' came next, with 16,770, and Pittsburgh, generally regarded as the sootiest place on earth, breathes the comparatively pure serene of 16,100. New York stands about midway in the list. Washingn's quota is not given in the extract from the report which has reached us. It undoubtedly would rank very well, with its almost total lack of factory smoke.

It has been apparent for some time that the air problem in large cities is assuming formidable proportions. This is largely due to the increase of motor cars, which exhale fumes as deadly as those of the classic dragon. Cities

in low-lying districts are at present almost helpless against this menace, for menace it certainly is. In all likelihood, the time will come when action of some sort will be Imperative against atmosphere so infected with dirt and gas as to render it perilous in the extreme. Great strides have been taken in safeguarding the water supply in large municipalities. But that is obviously only half the battle.

THE RADIO COMMISSION.

The Senate has approved the Watson bill, extending the life of the Federal Radio Commission to March 15, 1929. It has not as yet acted upon the nominations of Commissioners Caldwell, Pickard and Lafount, but its interstate commerce committee probably will recommend their confirmation if the House agrees to the Watson bill, which provides further that the terms of the commissioners shall run only until February 13, 1929. Under this arrangement, if the bill becomes law, all members of the commission would have to be renominated again at the coming session of Con-

In most respects the legislation is all that is desired. It is generally admitted that so far control over the ether has not been established satisfactorily. The Radio Commission no doubt has done its best. The situation is most complicated, however, and effective control has proved to be more of a problem than was anticipated. It is predicted, on the other hand, that with the preliminaries completed and with a year's experience behind it, the commission will be able to make good progress during the coming year. The Watson bill gives it that chance.

The important consideration at the present time is to extend the life of the commission so that radio will not revert to the chaotic condition that prevailed before the control bill became law. Additional regulatory legislation is not needed and would serve only to further involve the entire situation. Confirm the membership of the entire commission, extend its life another year, and if by March 15, 1929. satisfactory betterment has not been had, the problem of radio control can be approached in other ways.

DRUG PANDERERS.

In the Harrison drug act the people of the country have a law which was enacted for the control of the sale and distribution of habitforming drugs. It is in no sense reform legislation, but a practical measure of regulation. Under its operation annually vast quantities of narcotic drugs smuggled into the country are seized and numerous arrests are made of peddlers of the drugs and users without a physician's prescription.

It will be recalled that some time ago one of the arguments brought against the presence of stores in which children spend their pennies close to schools was that in some of these places, or in their vicinity, the peddlers of drugs or depraved distributors of them mingle in the school groups and effect the ruin of the youth. Frequent drug raids here, a recent one being the seizure of a trunk containing a large quantity of drugs, and consigned to a private school, show clearly enough that there has arisen need for educators to take notice of this evil. As more than 90 per cent of the drugs unlawfully used are smuggled into the country, and distributed surreptitiously, there is no way of knowing how many addicts are at present in the United States. The estimates run from one hundred thousand to more than

The recent statement in print by a leading insurance authority that most of the crimes committed in New York and Chicago by the gang type are crimes of young men who have formed the drug habit supports other statements made from time to time by officers of correction for penal institutions, welfare societies and others who come into contact with the victims or who have reason to know the facts. It is stated that the alcohol habit does not go along with the drug habit; that the one creates an antipathy to the other. To what extent the operation of prohibition has turned former intemperate users of liquor into drug users is a matter of surmise.

The fact that the United States has the greatest per capita consumption of opium among the leading nations of the world is an index to the ratio of consumption here of other and more vicious drugs, such as heroin. The reason for the big marketing of smuggled narcotics in this country is, of course, the high average of prosperity, making the United States the most profitable market for the drug ring, whose headquarters, presumably in Switzerland or France, have defied the efforts of the police of the world to locate.

TAX TITLES.

It would seem that Washingtonians with spare funds for investment are missing chances here at home while chasing the elusive dollar in other sections of the country. Each year when the list of properties upon which taxes are unpaid is published and the sale of the lands advertised, there comes to Washington from western New York a man with a bank account who evidently has great faith in Washington real estate. He never leaves until he has acquired temporary title, at least, to various and sundry parcels of real estate in the District of Columbia.

The annual sale of properties for unpaid taxes took place last month and the report of results has just been made by Commissioner Taliaferro. This report indicates that 9.176 separate parcels of land were sold for taxes and that the District realized from the sale \$611,680.27. C. H. Wiltse, of Rochester, was the principal customer, buying more than a third of the properties offered, and paying for his purchase more than half of the entire sum received. Mr. Wiltse bought 3,373 certificates for which he paid \$339,856.20. Manuel Faust. of Cleveland, took tax title to 1,728 parcels for \$69,058.80, while two Washington buyers, Messrs. Rout and Fraser, bought 3,597 parcels between them.

OCEAN AIR MAIL.

Representative Kelly, of Pennsylvania, has introduced a bill authorizing payment of \$3 per pound on air mail carried over routes exceeding 2,000 miles in length. The bill refers specifically to transoceanic aircraft.

Postal matter lends itself so readily to aircraft transportation that the growth of the air mail has been both steady and rapid. Several years ago the Postoffice Department blazed the way. Gradually it built up the business until, when it was turned over to private capital, it was a going concern. At the present time, according to the depart-

country are making a profit. Furthermore. if rates were reduced from 10 cents per half ounce to 5 cents per ounce, as provided for in pending legislation, it is said that the volume of mail carried would increase from 100 to 200 per cent.

It is probable that the first transoceanic air lines will depend largely upon the transport of mail and express matter for their sustenance. Eventually, of course, they may develop a large passenger traffic, but this will not come until after it has been demonstrated that planes can cross the ocean regularly and in safety. Already several projects are afoot -one will be inaugurated during the coming summer-for regular commercial transatlantic flying, all of which are counting on mail contracts. The Kelly measure is most timely.

THE FOOTBALL CODE.

The new football code may be regarded as a moral victory for spectators. The 1927 code was attacked from every conceivable angle. and a concerted movement had been started to bring football back to the 1926 status. Although the rules committee, meeting last week-end at a New Jersey country club, failed to take such drastic action, it authorized for the coming year three changes in the 1927 code, each of which is designed to clear up confusion. In brief, the new rules remove a good share of the protection afforded the lateral or backward pass, do away with the confusing distinction between a fumbled and a muffed punt, and strike at unfair blocking and checking of a screened pass.

From the spectator's standpoint the recent innovation that is most frequently criticized is the setting back of goal posts 10 yards be hind the goal line. It had been hoped that next year would witness a revival of the oldtime playing field in which to make a touchdown it was necessary actually to cross beneath the goal posts instead of merely to advance the ball across a white line. The rules committee made no decision on this point, however, and the behind-the-line goal posts will remain during 1928.

Of equal annoyance to the spectator during 1927 was the matter of muffs and fumbles. It was absolutely impossible to call one or the other from the stands, and practically impossible, in many instances, to call them correctly on the field. The rules committee has laid down for 1928 that either a muff or a fumble of a punt may be recovered by the kicking side, but may not be advanced beyond the point of recovery, and since both now have equal status there will be no reason to differentiate between them.

The rules committee has made no fundamental changes in football, the new Tules be ing designed rather to correct abuses and confusion growing out of the previous rules. It has done a good job. Football needs more than anything else to be let alone. Coaches officials, players and public now will have the opportunity to accustom themselves to the present game, somewhat simplified over that of 1927, but fundamentally the same.

MIAMI'S BANK RUN.

Since early in 1926, when the Florida land boom burst with a resounding thud, its banks have been steering a cautious and conservative course. In most quarters it is believed that financial conditions in Florida now are thoroughly satisfactory and that the present flareup in which three banks have been taken over by the State comptroller and another has experienced an incipient run is not of particular significance. Trouble, apparently, was stirred up by an anonymous individual who, under the signature "Hiram," circulated letters counseling withdrawal of deposits. Investigation of the source of these letters is under way, but

as yet the writer has not been identified. The banks involved are the Southern Bank & Trust Co., taken over by the State comptroller at the request of its officers and against which the anonymous letters were directed; the Citizens Bank of Miami and the Bank of Allapattah, taken over to prevent them from being subjected to an unnecessary strain because of the possibility that a run would develop and not because either was unsafe in its present condition. The run developed against the First National Bank of Miami after the other banks had been taken over. The latter institution was able to meet all demands for payment.

In every quarter it is agreed that as soon as public confidence is restored the critical period will have passed. Florida banks have on call in New York millions of dollars. They have taken to heart the lessons learned in the boom period and have been leaning backward during the past year or so in the matter of loans. Fundamentally, Florida stands today more sound than ever before. The State is destined to play an important role in the future, not only as a national playground, but also as the truck garden of the Eastern seaboard.

In the meantime no effort should be spared in running to earth the individual responsible for the poison pen letters. With banking so dependent upon public confidence the person who willfully sets out to destroy confidence perpetrates an atrocious commercial crime.

SWAPPING GROCERIES OVERSEAS.

In the days of the windjammer the skipper of a merchant ship was more than a sailor; he was a trader, and the field of his operations was the seven seas. The owners of the clipper ships that sailed from New Bedford, New York, Philadelphia or Baltimore to the Gold Coast of Africa or to the ports of Asia could never be certain of the character of the cargoes which their shipmaster-generally an owner of at least one-thirty-second of the craftwould bring back to the home port. They might be slaves or spices.

The laying of cables changed all that, and the click of the Morse code kept the master and owner in touch.

A few months ago still further advance was made possible by the development of telephonic communication across the sea. A food broker in New York lately picked up the telephone on his desk and asked for Rotterdam. He held the wire for ten minutes, and talking over 3,500 miles of distance, "in that tenminute conversation orders were placed for 150 tons and 3.500 cases of California prunes for quick shipment from the Pacific Coast to Rotterdam. But the trade was not all onesided, for the Rotterdam buyer of the prunes sold to the New York broker during the same transaction 650 bags of poppy seed, 600 bags of caraway seed, 80 tons of mustard and 3 tons of mace for shipment from Rotterdam to New York."

According to the New York Sun, this was the first recorded use of the transatlantic telement, six of the fifteen air mail lines in the phone for the sale of groceries.

Moon Power

By ROBERT QUILLEN

THE common people treasure many beliefs that are called "superstitions." They are beliefs that can not be traced to a definite origin, that have no support of scientific fact or theory and yet are generally accepted by the unschooled because they have the dignity and prestige robbed by Jack the Stripper.

One such belief concerns the powers of the moon.

The oldest records of civilization reveal a fear of the moon's mystertous influence. "The sun," said the Hebrew poet, "shall not smite you by day, nor the moon by night." Out of one of the early civilizations came the word "Junatic"—one made mad by Luna, the moon. From the dawn of history, men have believed in moon madness.

This belief does not survive; but the unschooled still believe the moon affects the fertility of seed: that timber should be cut, hogs killed, beans planted and grain harvested "when the moon is right."

Surely the belief could not have survived a thousand generations uness experiment and observation gave it support.

Surely a heavenly body with power to sway billions of tons of salt water from side to side of the earth's surface can affect the earth in

One of our staunch friends and old customers has recently shown us some furniture which was purchased from W. B. Moses & Sons by her family in the year 1865.

This and other similar incidents have led us to an endeavor to locate some of our first records for historical purposes and to take photographs of merchandise which we handled for the people of Washington in the day of Abraham Lincoln.

Will you not cooperate with us in this endeavor? Ask the older folks what they remember buying from Mr. W. B. Moses, the Founder of our Store, and thus help us to complete an interesting historical record woven in with the romance of Washington's Civil War period.

Thank you!

JASCHA HEIFETZ CONCERT CHARMS LARGE AUDIENCE

"Symphonie Espagnole" and "Estrellita" Features of Program at Poli's.

RENDITION IS MASTERLY

Jascha Heifetz, the renowned vio-linist and composer, was the soloist in a comprehensive concert yesterday at Poll's Theater under the local manage-ment of Mrs. Wilson Greene. The art-ist was favorably received by a large audience and had to respond to an en-core several times.

ist was favorably received by a large audience and had to respond to an encore several times.

Mr. Heifetz's violin tone is full and rounded and he has notable finger dexterity and a real gift of interpretation. This was particularly noticeable in the lovely "Symphonie Espagnole," by Lalo, which was the feature of his program. Here he gave full value to the musical beauty of the themes in the several movements. His phrasing, his tempo and double stopping were uniquely artistic and his bowing was of so excellent a nature that it must have been a series of lessons to the violin students present.

The audience had awaited his playing of the "Estrellita," by Ponce-Heifetz, and it was rewarded by a masterly rendition of this dainty composition. The quaint Spanish rhythm and langourous style of "Estrellita" makes it a splendid concert number, and Mr. Heifetz's arrangement added still more to its charm.

Helfetz's arrangement added still more to its charm.

Other popular numbers on the program were Schubert's Rondo and "La fille aux cheveux de lin," by Debussy, and his technical ability was successfully tested in "Caprice 24," by Paganini, with an arrangement by the great Auer, whose pupil Mr. Helfetz was in Europe, Isador Achron as accompanist was aceptable, and added to the program by his understanding support of the violinist.

WOULD BREAK DEADLOCK

An attempt to break the deadlock that has existed for many years here over workmen's compensation legislation will be made in the near future, as the result of a suggestion yesterday by Senator Blaine (Republican), of Wisconsin.

ures get together and try and reach a compromise.

The Bruce-Underbill bill would place compensation insurance with private companies, whereas the Capper-Fitzgerald bill would have it administered by the United States Employes Compensation Commission.

Those who appeared yesterday to indorse one or the other of the bills agreed that Senator Blaine's suggestion was a good one, and both sides probably will designate men to take part in the proposed "get together" conference within the next few days.

The principal advocate of the Bruce-Underhill bill at the meeting was W. Everett, representing the Board of Trade, the Chamber of Commerce, the Merchants and Manufacturers Association, and various automobile, real estate and insurance interests.

Among those who appeared to support the Capper-Fitzgerald bill were Frank J. Coleman, secretary of the Central Labor Union: Edgar Wallace, legislative representative of the American Federation of Labor, and William McK. Clayton, of the Federation of Citizens Associations.

Rathbone Bills Urge Memorials to Lincoln

Restoration of the house on Tenth treet, opposite Ford's Theater, in which President Lincoln died, and the acquisi-tion and preservation of Fort Stevens where Lincoln once was under fire, are provided for in two bills introduced yesterday by Representative Rathbone (Republican), of Illinois.

Representative Rathbone, who was born in this city, is an ardent admirer of Lincoln. His parents were in the theater box with Lincoln the night of the assassination.

BINGHAM LEADS FIGHT AGAINST RESOLUTION

the "letter" of the law that counts, the "Draft Coolidge" adherents could admittedly disregard the first statement in the resolution. But the added provision, it was declared, would virtually eliminate President Coolidge even though, as Senator Bingham argued, there should come a dire emergency such as a state of war.

cast for Senator La Foliette, and when this is considered with the Democratic votes Mr. Coolidge's majority is not as large as one might be led to believe.

The Wisconsin senator recalled that in 1875 when the shoe was on another foo., or when efforts were being made to give Grant a third term, that the House overwhelmingly passed a resolution identical to hi: except for the commendatory clause relating to President Coolidge, and that supporting that resolution were 22 out of the 24 New England members voting.

Senator Bingham said he thought it was significant that the introduction of the resolution followed a Nationwide poll, apparently referring to the one taken by the Pathfinder, a local publication, which showed "that it was the overwhelming wish of the people who took the trouble to answer the poll that Calvin Coolidge should be the candidate." The Wisconsin senator explained very frankly, however, that he introduced his resolution following the revival recently of the draft movement in New York.

It was his point that a third term would be commended for not using the power at his disposal, givingas an illustration of this power the Republican machine in the South.

"Everybody knows that it is corrupt," he declared, "that it is a disgrace to the Nation. They line up the Southern States like a master lining on the support of the resolution. The coolidge should be commended for not using the power at his disposal, givingas an illustration of this power the Republican machine in the South.

Talks of Patronage.

It is within the power of any President, he declared, to get the nomination at the hands of his party as long as he wants it. There are approximately 60,000 postmasters, United States marshals and the like on the Federal pay roll drawing a total salary of \$127,-500,000 a year, and in addition there are 79,745 employes under the Hitchcock "one-two-three" plan of competitive examination receiving an aggregate salary of \$104,600,000 a year, and whom a President, if he so desired, could use to force his renomination, he declared.

Under the "one-two-three" plan of

The fact was inescapable, he said, that the resolution was sponsored by "enemies of the present occupant of the White House." He recalled that the author of the resolution, Senator La Follette, represented a State unfriendly to the Coolidge policies. Four years ago, he said, the delegates stood up and acclaimed the President, all save the delegates from Wisconsin Senator La Follette retorted:

"And the Wisconsin delegates are very proud of their action at that convention."

Despite the unfriendly attitude of Wisconsin and the Democrats, Bingham continued, the President's popularity was shown by his majority of more than 7,000,000 votes.

Senator Brookhart, of Iowa, Republican Progressive, interrupted to observe that the Connecticut senator "overlooked the 5,000,000 votes that were losted the "one-two-three" plan of ompetitive examination, the applicant under tivel semaination, the applicant of the same political party that hap-tot, and the same political party that hap-tot, and the Wisconsin delegates are very proud of their action at that convention."

THE BUSINESS WOMAN

THE value of careful grooming can not be overestimated, especially in the case of the business woman. The first law made by herself, for herself, should be, "Consider appropriate-resis;" the second, "Be neat;" the third, "Dook your best and spend the short-resist, should be, "Consider appropriate-resis." the second, "Be neat;" the third, "Dook your best and spend the short-resist possible time in staying that way."

Under the heading of appropriateness I would place dresses of dark colors because the dust of offices ruins the immaculate appearance of light ones with distressing promptiness. Dresses of intense, bright colors are inappropriate, for they serve to make the wearer conspicuous. O VOGUE 9244

DEAR Vogue—Can you suggest an atternoon dress that I can make and gives that feminine note which its so important a feature of this feet 5 inches tall, weigh 145 pounds and am in my thirties. ETHEL.

Dear Ethel—I have sketched for you can be sure of being not only in perfect as the shoulders and hips that give a certain fullness without adding breadth to the semant tiered effect at the smart tiered effect and the uneven hem—line that proclaim the frock of this season's without adding breadth to the semant tiered effect and the uneven hem—line that proclaim the frock of this season's without adding breadth to the semant tiered effect and the uneven hem—line that proclaim the frock of this season's virtuage. The crossed-over effect of the blouse is softened by an edge of cream colored lace and the soft crushed belt is finished with a crystal buckle. The cuffs are another detail worth noticing as the tie effect.

The color of the season of the season is will be the one sketched or you and black elt like the one sketched or you and black ocat, your hat can be of beige and black coat, your hat can be of beige and black coat, your hat can be follows. Your gloves, of course, will be beige silp-ons.

In this case the Declarer, planning his campaign, can see that West has either five or four Hearts. He must have three better than the card led have three better than the card led (the Five), and he may have one lower (the Deuce). The Declarer having but four Hearts in his two hands, it is evident that East must have either five or four, depending upon whether East or West has the Deuce. The Declarer can hold up the Ace of Hearts until the third round of that suit, but if he do, one of his adversaries will be left with one Heart and the other with two, so that no matter how the adverse Hearts may be divided, either adverse hand that obtains the lead will be able to lead that suit and doing so will save the game because four Hearts plus the one trick on which the adversaries en-

write M. Corson (Mrs. J. B. Corson) in brackets?

Also, if I write to "George Beck & Co., Sirs, Please send me samples of challis or light dress flannels, yours truly or yours respectfully," or how do I end my letter?

And in addressing an envelope to a man, should I write "E. S. Jones" or "Mr. E. S. Jones?" Somehow there is a sound to the Mr. I don't like.

E. M. C.

When you write in the third person—that is, when you speak of yourself as fif you were some one else—you may refer to yourself as Mrs., or Miss, as the case may be. Your example, "Please send a yard of silk to Mrs. J. B. Corson," is perfectly correct.

Why should you be "respectfully yours" to anyone, except of higher rank?

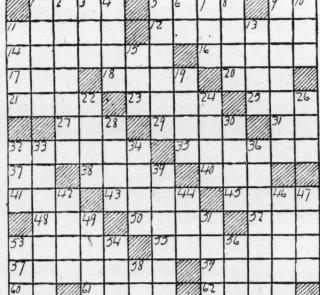

Why should you be "respectfully yours" to anyone, except of higher rank?

When addressing a firm I should use Mr. Es. Jones. To my friend I should write Edward Stone Jones, Esq.

I notice in some letters than names with Mrs. before them, or perhaps their maiden initials with (I suppose) their husbands' last names. This is not the correct custom either for widows or divorced women. A widow is addressed as Mrs. John Brown Corson, not as Mrs. May Corson. A divorced woman, who may have been Miss Lee, as Mrs. Lee Corson.

MODISH MITZI

Capes All Around the Clock.

Adelaide rather fancies herself in her new coat. She even says so and Polly and Mitzi agree that she has reason. Because Adelaide's coat is not a coat, it is a cape and anything smarter than a cape this season has yet to be invented. Adelaide's cape is wool plaid and full length. It has a skirt to match it and a sweater blouse that harmonizes. Mitzi and Polly are not as impressed as they might be because Mitzi's satin afternoon frock has a jabot which is attached on one shoulder and which may be unattached and slung around as a cape as well. It depends on one's mood how one wears it! Polly has a frock of flat crepe with a little separate capelet fastened at the walst.

Just to show that Adelaide is carrying coals to a coal strike, Mitzi trots out her new spring coat for admiration. It is of black kasha with a gadget that is a cape all the way around to the front and there turns into a scarf. Most modern and most bewildering! Mitzi is telling of an evening gown she saw the other night with an old-fashioned shawl of lace and of another with a cape of metal lace. They all three agree that any gown may wear a cape and so may any coat. And if you can spare a minute to look at their hats we should like to remark that these little helmet shapes, especially those that follow the eyebrow line or show just one eye, continue to be ever so chic.

HOW TO KEEP WELL

They found that the great cause of sickness among the Montreal babies was bottle feeding. The rule was to wean the baby when it was very young. There were many children to care for, and the pables came close together and mothers were chronically fatigued. They put their babies on the bottle largely because they thought mother's milk, in the circumstances, did not agree with the bables. The nurses were able to con-vince them to the contrary in many, if not in most, cases. When the baby had to continue on the bottle the mother was taught how to clean the bottles and nipples, how to pasteurize milk in the

mipples, how to besteurize milk in the home, how to keep milk cold, how to prepare the mixtures and how to keep all food clean at all times.

Up to this point Miss Hurley was merely repeating experiences that other communities had gone through. She climaxed her report by telling how they

CUTTING MONTREAL'S BABY DEATH RATE.

TO ME, much the most interesting report made to the recent conference on race betterment held at Battle Creek was that made by a nurse from Montreal. The subject of the report was "A Demonstration in Public Health in Montreal," and the name of the nurse is Miss E. B. Hurley.

It appears that a five-year experiment in baby saving is being carried out under the auspices of the University of Montreal. The work is done wholly among French Canadians. These titzens of Canada have very high birth rates and baby death rate was more than 200.

It is now 97, and they are hoping to bring it below 80 before the end of the experiment. The report stated that birth registration is almost perfect, die and return the baby death rate was more than 200.

Prof. Lange has published in a German medical journal the operative method by which such silken ligaments were implanted in the ends of muscles. Originally the silk ligaments were intended only as a palliative measure on the assumption that in time even the most durable silk fabric will be worn through by the continuous friction to which it is subjected. To the surgeon's surprise, Prof. Lange says, it was found that in many cases within a year tendon tissue began to form a year tendon tissue began to form and grow around the silk ligament and gradually to resume the function of a

This company, it was said, has about completed its construction program for the time being, and while 1927 results may not be anything remarkable, it is contended that the earning power will be more definitely shown in the course of the leurrent year.

The call money rate held at 4½ per cent all day, but funds were so scarce at that price that a higher rate appeared to be a strong possibility in the afternoon. The tone of the time money market also was firmer, with the asking rate established at 4½ per cent for all but 30-day maturities. Estimating the influence, if any, which the changes in the credit situation had on the stock market would be difficult, but it is certain that the heaviness of ±0day's listed bond market largely was due to these changes. Galileo and the Pendulum

ALILEO GALILEI was fascinated by a swaying lamp high up in the Tower of Pisa. It led him to experiment with weights swinging on a string. And he discovered and formulated the laws of the pendulum. He was nineteen years old then.

The laws of the pendulum are applicable to investments which fluctuate and those persons investing in such securities must be prepared to accept a swing one way or another in their market value.

A saner way to invest, however, is to purchase investments which are not governed by the laws of the pendulum, but which are always steady and are worth par every day in the year. Such securities are the First Mortgage notes issued by Swartzell, Rheem & Hensey Company, which bear a regular 6% return and do not cause the investor a day's worry concerning their value or security. This is the class of investments which you should seriously consider.

STEADIER TREND SHOWN BY HIGH GRADE BONDS

Declines, However, are Rather General-Pathe 7s Weaken Further.

TREASURY ISSUES FIRM

New York, Feb. 7 (A.P.).—Declines were rather general in the bond market today. Considerable selling was influenced by the advence yesterday of the Minneapolis Federal Reserve rediscount tate and indications that the remaining banks of the system will soon fall in line. This expectation was borne out in a measure by the increase in the Easton rate laie today, putting the per cent charge in effect in six of the twelve institutions.

The effect of last week's spurt in new offerings and a continued heavy volume this week continued to have an effect on sentiment and was a factor in causing many traders to limit their commitments. Semispeculative issues well affected by the movement of stocks on the "big board."

Pathe Exchange 7s plunged down more than 9 points, to 61½, on selling inspired by reports that the concern's sinking fund payments were doubtful. The loss in these bonds has been about 15 points in two days. Seaboard issues which also have been sageing rapidly

15 points in two days. Seaboard issues which also have been sagging rapidly continued downward, adjustment 5s in particular being hard hit, with a recession of 4%. Cuba Cane Sugar 8s added 2% points more to yesterday's sharp loss.

The high-grade railway, industrial and public utility leins, however, showed a steadier trend. Chicago Great Western 4s, Missouri Pacific 4s and Chicago & Eastern Illinois 5s lost large fractions but New York Central & Hudson River 5s, Chicago & Western Indiana 4s and a few others moved upward.

Treasury and Liberty bonds and chort-term certificates followed a firm trend, with a moderately large amount off business. of business.

Profit-taking developed in French and other foreign securities which have been advancing in recent trading. Latin-American issues, however, had good support. The city of Havana, Cuba, is seeking a loan of \$7,000,000 to extend its boulevard system, and American bankers are reported negotiating with the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the recent seek of the commonwealth of Australia of the commonwealth of the

Central Five Defeats Western, 42-35, in Loose Game.

Series

Tech Triumphs Over Business, 61-41, as Berger Stars.

SERIES STATISTICS

Business, 41. FRIDAY'S GAMES.

ECH and Central High Schools came through as expected in the cham-pionship basketball series yester-and assured that their battle Friday and assured that their battle Fri-day may decide the championship, Tech winning decisively over Business, 61-41, while Central downed Western, 42-35. The two winners still remain tied for first place with five victories and one

As the above scores indicate, neither Tech nor Central had any trouble downing its opponent. At times, West-ern gave Central a stubborn battle, but ern gave Central a stubborn battle, but in the latter stages of the game the final outcome was not in doubt. Central kept sending in a steady stream of substitutes and the game became uninteresting and poorly played.

Although Tech won by a much more decisive score, its game with Business was the most interesting of the two. Louis Berger, forward of the Tech team, who was trailing Cappelli, of Eastern, for high scoring honors by 7 points, came through with 12 points, giving him high honors by a margin of 5 points.

Berger played a good game throughout and lime and time again he passed to Rooney, his running mate, and to Goldblatt, when he himself was in position to score, which would have boosted his total beyond reach of the other leading scorers of the series. This is very evident by the fact that Rooney corralled 22 points, while Goldblatt made 15.

Business took the lead, 2-0, at the start of the game on a basket by Marks, but Rooney, Forney, Goldblatt and Berger, of the Tech team, soon swung into action and Tech took the lead, 15-3, before the end of the first period, Tech continued its onslaught in the second quarter and piled up a 31-11 advantage before the half.

C. U. Invades Dodge Charges Rough Work By Peltzer

Says German Pushed Him Off Track.

Cardinals Are Rated Elbowed While Leading in Millrose Race. He Asserts.

CATHOLIC UNIVERSITY'S BASKETBALL TEAM will strive to be the
first local quintet to crash through
with a victory over the strong Naval
Academy Basketers when these teams
clash at 4 o'clock this afternoon at
Annapolis. The George Washington
and University of Maryland teams have
already succumbed to the Middles this
season.
For the first time in several years
the flashy Cardinal Quintet will enter
the game a slight favorite over the Navy
Team. With a veteran aggregation of
stars, four of whom have represented
Catholic University on the court during
the past three years, the Brooklanders
boast one of the fastest and most
polished teams in this section.
For Capt. Carney, Ray Foley, Johnny
Long and Bill Harvey today's game will
be their last chance of gaining a
triumph over the Middles in their college career. On two previous occasions
during the past two years they have
visited Annapolis with high hopes of
victory, only to be disappointed, but the
forecast of this afternoon's battle seems
to be a different story.

Crawford's coaching contract was signed before Manager Frank Walker, of the Greenville Club, sold him to the Giants for \$10,000, and Pat is conscientious about such things. Hence the McGwaymen will be without his services until about June 1, when, having fulfilled his obligations to Guilford, he will return to the big time. Then, and only then, will he sign a contract with the Giants, which, it is said, will call for \$7,500.

Representatives of both the college and progames agreed that the change in interpretation of a fumbled punt, permitting the defense to recover but not run with the ball, was a forward step. They also agreed that the same change on the lateral pass meant little to the game. It was, they said, only a surprise play which many teams never used.

The other Washington entry, Miss Dorothy L. Woodin, was severely beaten in the fourth flight, losing by 9 and 7 to Mrs. H. L. Callister, of St. Louis. The medalist, Mrs. O. S. Hill, Missouri State champion, easily defeated Mrs. T. O'Callaghan, of New Jersey, by 8 and 7.

FAIR GROUNDS, New Orleans, Feb. 7 (A.P.).—W. Curran's Jack Higgins made a show of a high-class field of mud performers in winning the Panama Handicap, a mile gallop for 3-year-olds, here today. He was a well-supported long-shot. His backers were well rewarded, as he paid \$18 for a \$2 ticket. Bookie landed second money, with William Penn, hot favorite, third. William Penn was ridden by Abel, but the colt did not run within pounds of his best race.

W. R. Coe's Herodian, favorite, won the fifth race by a head from Tannic, with Adios third, half a length back. Herodian made all the running but light at the end tired and just lasted to win by a head. Adios swerved badly in the stretch. The 6-furlong event was run in 1:15 1-5.

Nine maiden 3-year-olds and upward competed in the first race, and H. C. Fisher's Smoldering proved the best mud runner by winning in a drive from Golden School, with Jacqueminot third.

The track was very heavy and holding due to the heavy rain of the last 24 hours. Smoldering was made the favorite and he rushed into the lead early. Golden School made a deter-mined bid in the stretch but Smoldering drew away to win by half a length. Jacqueminot was third, three lengths

J. Coffey's 9-year-old gelding Horo had to be much the best to win, as he was subjected to much rough work, and in the stretch when he was making his run Billy Beer swerved over and bumped the old gelding. However, he kept on, took the lead and won going away by two lengths. Lord Valentine was second, three lengths ahead of Fire Opal.

In a head finish, Aleader, with Red Harvey up, gained the purse in the third race, defeating the hot favorite, May Cooper, with Eloise third. May Cooper was probably much the best, but H. Fulton, who had the mount, was of no help to her in the final drive, but H. Fulton, who had the mount, was of no help to her in the final drive. St. Alban's Tossers Rally in the Final

Period to Win.

FRIENDS, 16 TO 13

T. ALBAN'S Basketball Team, displaying a more concerted defense, defeated the Friend's School Quintet, 16 to 13, yesterday afternoon in the American University gymnasium in a close-scoring game.

The game was a point-for-point battle until the final period, when a spirited rally by the St. Alban's Five clinched the victory. Bowles and Sabin were the leaders in the final-period attack of the winners, each breaking through the sturdy Friend's School defense to score in the crisis.

The playing of Poole, center man or the winners, was also a vital actor in the victory of his team, and it was his brilliant work on the tap-off which directly led to nany of the Saint's scores.

Fairbanks, Harden and Legg divided the points of the losers among them each contributing a pair of field goals St. Alban's. G FG P| Friends. GONZAGA TOSSERS DOWN EASTERN HIGH, 27 TO 23

Purple Is Led By Lynch, Pyne

Winners Take Early Lead; Withstand Challenge.

Cappelli Accounts for Majority of Eastern's Points.

ARGELY due to its brilliant first-half scoring attack, the Gonzaga-High School Basketball Team defeated the Eastern High School Quintet, 27 to 23, last night in a spirited contest before a large crowd in the Gonzaga gymnasium.

Swept off their feet by the fast-passing offensive in the first half, the Eastern High players, trailing 19 to 7 at intermission, came back with a vengeance with the resumption of play, but the early lead of the Eye Streeters proved too great a handicap.

After Faber had gotten Eastern away to a fast start, the Gonzaga Five, led by Capt. Joe Lynch and Danny Pyne, soon assumed the lead and continued to outplay the visitors throughout the initial periods. Coach Guyon twice shifted his line-up in an effort to add punch to its offensive, but the Gonzaga defense was very effective and often checked Eastern's attack at the center of the floor.

However, in the final period the strain of the fast pace the visitors set began to tell on the Eye Streeters who, during the first three periods had matched the speed of alternating Eastern teams.

Suddenly finding the net, the Eastern

Suddenly finding the net, the Eastern Team unleashed a fast-scoring rally, which soon brought it within halling distance of the tiring leaders. Ted Capelli ran wild during this spurt of the visitors, ringing up four baskets and two foul tosses in quick succession.

Tom Brown and Bussink, the Gonzaga guards, retaliated with a pair of neat baskets that virtually assured their team of victory. Until he was forced out by fouls Brew had played a fine defensive game, holding Jimmy Ryan, Eastern forward, scoreless from the floor.

ARE OFF

City Club, K. C. Cancel Bouts; J. C. C. Contests Tonight.

Two amateur boxing programs recheduled by Washington organizations this month were indefinitely postponed yesterday following the withdrawai of A. A. U. sanction for any Louts here pending the expected passage of the Watson-Updike bill to legalize decisions and admission fees now before Congress.

The Knights of Columbus exhibitions, scheduled for tonight, were declared off by officials of the fraternity who indorsed the stand of the A. A. U. Similar action was taken by the City Club, which had planned its second tournament later in the month. A third program, scheduled at the Jewish Community Center for February 16, will be held, according to Athletic Director Jim McNamara, who declared that the bouts were open only to members of the Center.

Charles L. Ornstein, secretary of the South Atlantic division of the A. A. U., declared that the organization yesterday was congratulated by many sources following withdrawal of sanction for the bouts which, it now felt were "embarrassing" to the police officials, inasmuch as decisions had been rendered and tolerated.

A strange combination of lucky and unlucky numbers played a big part in Miriam's winning the title.

She carried thirteen clubs to the tournament, left on the 13th of the month and her golf bag weighed 13 pounds and she was 23 years old and occupied sections 7 and 11 during her trip.

TWO BOXING Ty Cobb Better in 1927 Than Speaker, Successor; Effect of Deal in Doubt

High Salary of Vet- Difficult to See How eran Aroused Ill Feeling Here.

This does not mean that the Nats did not like Speaker personally. For he proved himself a fine, likable chap, willing to give his best to the club and to help any of the players, especially the rookles, better themselves in their chosen profession.

H. J. Odenthal, executive secretary of the City Club, yesterday outlined an extensive athletic program patterned after those conducted by the New York and Illinois Athletic Clubs, which sponsor track and field, basketball, boxing, wrestling, handball and swim-

Mt. Pleasant Retains
Odd Fellows Pin Lead
The Mount Pleasant Team, leaders in the Odd Fellows Bowling League, took two games from Harmony last week. Steel with a 334 set led in the attack. His double-header strike coming between two spares in the last four frames of the first game helped his team to win. Morgan rolled a 330 set for Harmony.

Golden Rule again advanced to a tie with Mount Pleasant in games won and lost, though the latter enjoys a total pin advantage, by taking three from Amity. Cordell, with a 338 set, and Tobey, with 331, carried the brunt of the attack for the winners.

Tris Will Improve

the Athletics.

By FRANK H. YOUNG.

THE signing of Tris Speaker by Connie Mack may help the Athletics agreat deal and, then again, it may not. Time alone will tell. There is no question but what the veteran outfielder, recently turned loose by the Nationals, is still capable of playing a bang-up game of baseball, the "fly in the ointment" being the effect the signing of an aging high-priced star has on the other members of the team. Of course, Mack did the same stunt last year Try Cobb's case and either believes that actions of this kind do not affect a team's morale or is taking the attitude that he is managing his own ball club and the other members of his cast will have to like it. Nevertheless, paying small fortunes to slipping stars, who have been brought in from the outside, does not make for harmony on a team.

Although President Clark Griffith probably would not admit it—or, perhaps, he does not know th—the fact remains that the deal which brought Speaker here last spring was a most unpopular one among the Washington players.

This does not mean that the Nats did not like Speaker persons ally, for he proved himself a fine. Ilk able chap, willing to give his best to the club and to help any of the players, especially the rookies, better themselves in their chosen profession, especially the rookies, better themselves in their chosen profession, especially the rookies, better themselves in their chosen profession at the players, especially the rookies, better themselves in their chosen profession at the players, especially the rookies, better themselves in their chosen profession at the players, especially the rookies, better themselves in their chosen profession at the players, especially the rookies, better themselves in their chosen profession at the players of the players, especially the rookies, better themselves in their chosen profession at the players of the players, especially the rookies, better themselves in their chosen profession at the players of the players and the players and the players and the players an

The pay rool of the A's has mounted steadily as such high-priced veterans as Eddle Collins, Ty Cobb. Zach Wheat and new Tris Speaker have been attracted to the Philadelphia fold.

Youth Is Medalist In Bermuda Tourney

Third Baseman Sammy Hale was the first to break into print with a statement that he would not play this season for the money Connie Mack has offered him. That started others to join in the chorus, and one of them is Max Bishop, second sacker, who wants more than the amount offered. Of course, both declare that they will not play unless they get what they think they are worth. In Bermuda Tourney
Familton, Bermuda, Feb. 7 (A.P.).

G. W. West, Dermuda schoolboy, was medality in the amateur championship matches of the Midocean Golf Club today with a score of 41 out and 40 home.

GOLF AS CHAMPIONS PLAY IT

By MIRIAM BURNS.

Former V. men's Western Champion.

The push shot is a good one to use when playing into the wind, as it keeps the ball I and makes for greater distance under those conditions. It is pliyed with the arms stiff and without "breaking" the wrists. The ball is hit on the downswing and the follow-through is shorter than the one used in the longer strokes. The push shot is among the harder strokes to master, but is worth the effort, and should be among the rverage golfer's list of shots.

Last season the pay-check business of the club was on a par with that of the expensive metropolitan cast of Yankees, although it is pruned down somewhat this season by the departure of Whest and Cobb.

If Mack's pitchers get off to a better start this year than last, the club will at least make it interesting for the Yankees. It will have plenty of punch with an outfield trio composed of Simmons, Speaker and Bing Miller, back in the Mackian meadows after a visit to St. Louis.

Last year Miller hit 328 with the Browns; Speaker, 327 with the Senstors, and Simmons, 392.

Few figures in the national games are as beloved as the 68-year-old Connie. Fans and players alike may wish the tall tutor luck but it will take more than this affectionate regard to help the veteran overcome the solid bulk of the Yankee opposition. Not much sentiment is wasted by the bats of Ruth and Cehrig nor the good arms of Pennock, Hoyt. Moore, Pipgras and the rest of the Ruppert rifles.

Councilor and Werber Win Game for Duke

Win Game for Duke

Blacksburg, Va., Feb. 7.—Duke University overcame a 4-point lead in the second half of its game with Virginia Polytechnic Institute here tonight and nosed shead to 34 to 31 in the final minute. The game was one of the fastest, most exciting battles ever seen on Memorial Hall court. V. P. I. started off with a rush, following Jankoski; goal soon after the first whistle. Porterfield counted twice from beneath the basket and was followed by Johnson and McEver. Past work by Jankoski; Councilor and Farley matched counters by Brown, Rice and Moore and Farley brought the Blue Devils within one point of the Gobblers three minutes before the whistle. Side line shots by Johnson and McEver a moment later gave Tech a 19-15 lead at the half.

Duke came back with a rush at the staft of the half and forged ahead when Councilor counted twice and Jankoski added another to put the Carolinians ahead 21 to 19. For 15 minutes both teams fought for the lead, displaying as fast type of ball as Memorial Hall court has known this year. Pirst one team and then the other held the lead until the last two minutes of play when two goals by Werber gave the visitors a three-point lead to win 34 to 31.

The visitors presented a fast cage aggregation and flashy forwards in Councilor and Werber, but were decidedly off in shooting during the first half.

BANKS' CREDIT BUREAU PLAN GAINS APPROVAL SA

Committee of Eight Appointed to Study Systems for an Organization Here.

DISTRICT STOCKS STRONG

By F. W. PATTERSON.

The establishment of an effective credit bureau for the benefit of the banks of Washington, which has been under discussion for a number of years, is likely to be accomplished before the istration of the District Bankers Asso

With members of the association recently expressing themselves as favorable to a credit bureau in the District. and authorizing the president to appoint a committee of eight, with two members from each group of banks in the membership, to consider its estab-lishment, and report to the association at a later meeting. W. W. Spaid, presi-dent, has just appointed the following committee:

Committee:

Robert W. Fleming, president Riggs
National Bank, chairman; Harry V.
Haynes, president Farmers & Mechanics National Bank, for the national
bank group. Edson B. Olds, vice president Union Trust Co., and Frederick
P. H. Siddons, secretary American, Sa. P. H. Siddons, secretary American Security & Trust Co., for the trust company group; Francis G. Addison, jr., vice president Security Savings & Commercial Bank and Clutude H. Woodward, president Mount Vernon Savings Bank,

mercial Bank and Claude H. Woodward, president Mount Vernon Savings Bank, for the savings bank group. Maurice Otterback, president Anacostia Bank, and Lanier P. McLachlen, president McLachlen Banking Corporation, represent the State bank group.

It is believed that the committee will promptly begin a study of bank credit bureaus in operation in other communities in order to determine the type that would best fit the needs of the local member banks, in order that a report and recommendations may be presented at the annual convention of the association in June.

The question of a credit bureau here was first studied by the protective committee, of which Harry V. Haynes, has been chairman for several years, and in discussing the subject at the 1926 convertion it was his thought that the bureau plan best suited to Washington banks was the one in use in Cleveland and followed by the Cook County, Ill., Bankers Association.

Bankers approached on the subject fee enthusiastic over the prospect of early action on this matter, one of them stating yesterday, "We could have paid for this credit bureau for ten years to come in what we have lost, probably in the last three years, by reason of the fact that we were victims of somebody that went around duplicating his borrowings."

District Market Improved.

Yesterday's session of the Washing-toy Stock Exchange was marked by a decided improvement in the volume of trading, as well as by the strength of the stocks in which transactions were recorded with many of them showing substantial gains. substantial gains.
Washington Railway & Electric com

Washington Railway & Electric common, which advanced to 470 on Monday, stepped up to 485, a new all-time high, but the sales were restricted to 20 shares in two lots. Potomac Electric Power 5½ per cent preferred sold unchanged at 108½ on sales of 35 shares, with closing sale at 108½. Washington Gas Light moved further upward with one lot changing hands at 86%, the next sale at 86%, while the final transaction was made at 87. Capital Traction was firm at 114%.

Riggs National Bank advanced to 505 on sales of two odd lots, while American Security & Trust sold to the extent of 60 shares unchanged, at 450. Merchants Transfer & Storage preferred led the miscellaneous list and 78 shares sold in four lots at 110, a 2-point advance over previous close. Mergenthaler Linotype sold in three lots at 108½. Peoples Drug Stores preferred was strong and still quoted ex dividend sold at 123½. Lanston Monotype moved at 108½. Sanitary Grocery preferred advanced to 107, and Columbia Sand & Gravel preferred was firm at 105.

Save for a sale of Washington Gas Light 6s, series "A" at 106, the bond side of the market was neglected.

CURB MARKET REVIEW.

New York, Feb. 7 (A.P.)—Profit-taking sales and "bear" selling checked buil operations at an early hour in the curb market today and transformed a general advance into a widespread decline, broken only by a few spots of strength among the industrials. Utilities and oils were hard hit.

The outbursts of strength included Bancitaly, which touched 1.60%, a new high and was up 10% net on the day; the Trumbuil Steel issues, all of which climbed to new high ground; Shearler Pen, which reached a new high at 46% and U.S. L. Battery, which celebrated its renewed activity by moving up to a new high at 80%. American Manufacturing, American Rolling Mills, Bohn Aluminum & Brass, Deere & Co., General Baking and a few others also closed higher. Davega, Case Plow and Celanese, which made extreme gains yesterday, lost about 2 points and the control of the property of

sagged. The 7-point loss of Commonwealth Edison on a turnover of 60 shares her-alded the weakness of utilities under the burden of profit-taking sales. Amer-

ican Light & Traction lost 2 points and electric Bond & Share and Electric In-

5% Gold Debentures due 1948

Dated February 1, 1928

Due February 1, 1948

Interest payable February 1 and August 1 at the office of Harris, Forbes & Company in New York City or, at the option of the holder, in Chicago, Ill., or in Boston, Mass., without deduction for any Federal Income Tax not in excess of 2%. Pennsylvania and Connecticut Four Mills taxes refundable. Callable at 103 through February 1, 1931; thereafter through February 1, 1946, at decreasing premiums; and thereafter at 100; accrued interest to be added in each case. Coupon Debentures in denominations of \$1,000 registerable as to principal. Central Union Trust Company of New York, Trustee.

Mr. Leland Rex Robinson, President of the Corporation, has summarized in part his letter to us as follows:

Company: Second International Securities Corporation was organized in 1926 to carry on the business of an investment trust of the general management type. The business of the Corporation is the investment and reinvestment of its resources in domestic and foreign securities conforming to its clearly defined investment standards and, to a limited extent, participation in the underwriting of eligible securities. Its assets now include over 400 different governmental, railroad, public utility, industrial and other securities representing investments in over 30 different countries. The Corporation from its inception has commanded the investment service of American Founders Trust.

Assets: Cash and investments of the Corporation, as shown in the Balance Sheet in the above m tioned letter, will, upon completion of this financing, exceed \$21,000,000, an amount over 300% of its total funded debt, which will then consist of these \$7,000,000 5% Debentures. The Debentures are to be senior to \$10,500,000 par value of cumulative preferred stock (two series) and to 155,000 shares of Class "A" and 600,000 shares of Class "B" common stock.

Earnings: During the fiscal year ended November 30, 1927, the earnings of the Corporation were as

Gross Earnings from Interest, Dividends and Realized Investment Profits Expenses and Foreign Government Taxes	\$1	,106,672 130,951
Net Earnings Before Interest & Federal Taxes.	\$	975,721
Annual Interest Charges on Funded Debt to be Outstanding upon Completion of this Financing		350,000
Balance	\$	625,721

Net Earnings as Above Over 2% Times Above Interest Charges

During the period covered by the above earnings statement the assets of the Corporation invested and available for investment averaged less than \$11,000,000 as compared with over \$21,000,000 upon completion of the present financing. The earning power of the Corporation is directly dependent on the amount of as to invested and available for investment, and the above statement does not reflect any earning power of the proceeds of this financing.

Indenture: The Corporation may not issue or assume any additional funded debt except Debentures (of this or other series) under the terms of the Indenture and no additional Debentures may be issued unless upon the issue and sale thereof, the Corporation's current resources (as defined in the Indenture) would amount to at least 200% of its entire funded debt then to be outstanding. Certain of the provisions of the Indenture or of any supplemental Indenture may be modified upon the affirmative vote of holders of at least 85% in principal amount of the outstanding Debentures, with the consent of the Corporation.

> We Recommend These Debentures for Investment Price 951/2 and Interest, Yielding Over 5.35%

> > Complete Circular on Request

Debentures are offered for delivery when, as and if issued and received by us, and subject to the approval of counsel.

It is expected that Temporary Debentures will be available for delivery on or about February 28, 1928.

CHICAGO GRAIN.

Chicago, Feb. 7 (A.P.).—Demand for mmediate delivery corn in Chicago today proved to be the largest met with in long while, and corn export business was at the highest basis yet this season. As much as 71/2c a bushel over the price of Chicago May delivery was paid for

export corn at the Gulf of Mexico,
Closing quotations on corn were unsettled, 3/c to 5/c net higher; wheat, 1/2c to 1/2c up; oats at 1/2c to 1/4 and 3/2c advance and provisions unchanged to a

advance and provisions unchanged to a rise of 20c.

Corn prices ranged higher from the very outset of trading, but offerings increased on the advances and the top quotations reached were not held. In addition to excellence of cash demand, corn belt weather was distinctly unfavorable for the crop movement, and the trading basis at Kansas City was ½c higher, with no purchases reported to come here from the Southwest. Meanwhile, export business in all positions was estimated at 250,000 bushels, including some corn for export disposed of here to Eastern handlers.

Estimates were current that Europe must buy at least 40,000,000 bushels of United States corn between now and the last of June. Notice was also taken of the fact that country offerings today were light, and it was pointed out that prevalent rains are likely to interfere with rural transportation and injure the quality of a considerable amount of corn on farms. Under such circumstances, smaller receipts shortly were predicted. Oats were firmer, sympathizing with corn.

Wheat developed firmness partly ow-

oredicited. Oats were firmer, sym-bathizing with corn.
Wheat developed firmness partly ow-ng to corn strength and partly as a re-ult of an unexpected upturn in Liver-sool quotations. Besides, there was a orecast of colder weather Southwest, and drought reports persisted from Vestern Texas.

Provisions reflected an advance in hog values, and there was a let-up in the uggressive selling which of late has burlened the market.

RAIL HEADS DEFY COURTS AND U.S., ASSERTS JUDGE

Urges Criminal Contempt Proceedings Against 4 Southern Pacific Officials.

Houston, Tex., Feb. 7 (A.P.).—Criminal contempt proceedings against four officials of the Southern Pacific lines in Louisiana and Texas for violating the court's injunction restraining them from interferring with operation of the Brotherhood of Railway Clerks was recommended in an opinion handed down here today by Federal Judge J. C. Hutcheson.

officials of the railroad, who

Hutcheson.

The officials of the railroad, who several days ago were found guilty of contempt of court in a civil action are H.

M. Lull, executive vice president of the Southern Pacific Lines in Louisiana and Texas; G. S. Wald, general manager; J. G. Torian, assistant to Mr. Wald, and W. R. Mann, superintendent of the El Paso division. They face sentence in this case next Friday.

The court indicated that the Brotherhood of Railway Clerks should be restored as the official labor body of the company's clerical employes and that the company union, the Association of Clerical Employes, should be dissolved. Mr. Lull and his three associates are alleged to have violated the third paragraph of section 152 of the Railway Labor Act, the purpose of which ostensibly was to eliminate strikes of employes of transportation lines.

In August an injunction was issued restraining the rail officials from interfering, influencing or coercing the brotherhood in operation of its union. Judge Hutcheson indicated the railroad offices of the Federal Mediation Board but apparently had defied it.

"It is abundantly clear," the opinion

"It is abundantly clear," the opinion said, "* * that the matters here involved should be referred to the proper law officers of the Government for them to determine whether a proceeding for criminal contempt of coneeding for criminal contempt of court in the name of the United States should be begun." Strong terms were used by the jurist in assailing the conduct of the rail officials.

"While it is hard to believe that a railroad and its officials would deliberately seek to set at naught both the egislative and judicial power of the Inited States," he said, "it is more difficult to avoid the conclusion that the violation of the statute and of the injunction * * * was the result of strong and settled purpose to defy

THE SPOTLIGHT

All day long on the lawn in front of the District Building a great big man with a broad-ax whittled on a tree, making a totam pole for the Boy Scouts Of course, this had to happen when "Rose Marle" was not playing at Poli's. Otherwise, T. D Bonnerville, the manager, might have sent down his celebrated totem-pole chorus to make life easy for the whittler and for those who paused in the drizzling rain to watch him; also, for the clerks in the District Building and the editorial staff of The Washington Post, stealing a few moments from work, now and then, to watch the making of a toten pole. Life is like that; when "Rose Marle" comes to town the whittler will have gone.

have gone.

Some time during this week—perhaps tonight or tomorrow—lise Marvenga, prima donna with "The Student Prince" company, will sing the role of Kathie for a total of 1,200 times. This, it is believed, constitutes a record. Miss Marvenga was first to be cast in the part when "The Student Prince" opened in Atlantic City, as far back as 1924 year when "The Student Prince" opened in Atlantic City, as far back as 1924. Yesterday afternoon, in company with DeWolf Hopper, Sudworth Fraser and other singers, she went to Walter Reed Hospital, there to entertain the boys ncapacitated as a result of their servences in the World War.

in comes William T. Webb, of 1111 S street northwest, with a faded and musty old program from Albaugh's Grand Opera House, the week commencing Monday, November 20, 1893. The attraction then on the south side of the Avenue was Rose and Charles Coghlan and the Coghlan Company in "Diplomacy." And right on the second page is a curious old advertise...ent inviting the audience, after the performance, to go across the street to 1400 Pennsylvania avenue, where there was "Wuertzburger Hofbrau on Draught." Wells Hawks, veteran press agent, a familiar figure on the streets of Washington, where he publicized the United State Navy during the late festivities, is now back on his feet again after a lengthy sojourn in the Naval Hospital, Brooklyn. One of the constant visitors at the bedside, Dixle Hines, flashes Wells' latest story:

It seems that a dealer in ready-made clothing was endeavoring to persuade an actor that a coat fitted him like paper on the wall; that its cut was the perfection of fashionable elegance, its cloth the best product of foreign looms. As the thespian needed such a garment in a part he was to play on Broadway, he was exceedingly interested; but, sniffing a suspicious odor, he put his nose to the garment and exclaimed:

"I'm sorry, but I couldn't wear this on the stage; it smells dreadfully."

"My friend," replied the dealer, "it ish not de coat dot schmells, it ish me!"

CONDEMNATION LAW **CHANGES BY GRANT** MEET OPPOSITION

Commissioners and Bride Attack Measures Now in Senate and House.

LONG LITIGATION SEEN IF BILLS SHOULD PASS

Corporation Counsel Points Out Work of Years Before Courts Would Be Lost.

Lieut. Col. U. S. Grant's proposed new law to revise completely the precedure for acquiring land for park sites by condemnation was disapproved yesterday by the District Commissioners. The Commissioners contented themselves with characterizing the legislation as undesirable and not necessary to the District. Their opinion ran rather to the proposed broadening of the bills to make the new condemnation plan apply to purely municipal cases. Corporation Counsel William W. Bride, however, used stronger language and made a sweeping criticism of the Senate and House bills containing Col Grant's proposal. He said some of the provisions were of highly questionable validity and, if enacted, the work of years would be destroyed.

The bills were introduced in the House by Representative Zihlman, of Maryland, and in the Senate by Senator Capper, of Kansas. to purely municipal cases. Corporation

Additional Justice Provided.

Additional Justice Provided.

It provides for the appointment by the President of an additional justice of the District Supreme Court, who would specialize in condemnation cases. It also provides that the Attorney General shall represent the United States in all condemnation proceedings.

Bride's views were contained in an opinion submitted to the Commissioners at their request, and quoted in the Commissioners' report to Brig. Gen. H. M. Lord, director of the bureau of the budget. Supported by detailed comment on the bills section by section, Bride's general comments were as follows:

"While there are a few good points in the bills it seems to me that a very few amendments to the present law would cure any objections to present practice which seems to have worked fairly well in fact despite theoretical criticism to the contrary. Our present laws have been made concrete and settled by appellate decision.

Long Strife Predicted.

Long Strife Predicted.

Long Strife Predicted.

"At the present time almost any objection raised to a legal step taken by the District may be met with a citation of authority which is conclusive.

"If a law were adopted such as the present bills suggest, changing present practice in toto, and containing provisions, of which some are of highly questionable validity, the work of years is destroyed. We should be again at the inception of a long period of legal strife ended only when an appellate court had ruled upon the myriad contentions and objections raised from time to time to defeat our condemnatime to time to defeat our condemna tion riotects.

The citizens' advisory council recent-ly approved Col. Grant's bills and rec-ommended that they be made to in-clude all District condemnation cases, those for school and other public building siss and street opening as well as for park sites.

Gallon of Milk May Save Victim of Poison

By forcing a gailon of milk down the throat of Jacob Roberts, 30 years old, a boarder at 4607 Fifteenth street northwest, yesterday, Policeman Frank J. Scoville, of the Thirteenth Precinct, probably saved the man's life.

In a mood of despondency, police report, Roberts attempted to end his life in his room by swallowing poison. Occupants of the house discovered his act and summoned the police. Socyille responded and after learning the nature of the case hurriedly procured four quarts of milk, which he forced Roberts to drink. After the first aid treatment, Roberts to drink. After the first aid treatment, Roberts was taken to Garrield Hospital, where it was reported that although his condition was serious, he had a chance to recover, Roberts, police say, blamed marital difficulties for his act.

The method employed consisted of an oscillating current of very high frequency, and Dr. Stimson said further researches into the adaptability of the current for treating the disease would be carried on by the health service.

Use of this electric phenomenon had never before been made in connection with cancer, he said. Dr. J. W. Schereschewsky is in charge of the work.

"Thus far the results have been sufficiently encouraging so that we think that they ought to be followed further," with cancer, he said. Dr. J. W. Schereschewsky has found that by submitting mice which had cancer artificially induced in them to this high frequency current & certain percentage of them can be cured. At the same time he has found that some of them, if the dosage is a little too high, will die. It is a question of further investigating the exact dosage of this sphysical agent.

FUND TO PURCHASE BUILDING PROVIDED

Appropriation Bill Carries the Sum of \$2,680,000, Aiding Triangle Plan.

BUREAU OF ENGRAVING AND PRINTING ITEM CUT

Total Left at \$1.063.337.000: Committee Members Ired at Construction Delay.

Funds for the purchase of the Southern Railway Building and for continuing work on three of the new public buildings here are provided for in the annual appropriation bill for the Treasury Department and the Postofice Department, which was reported to the House yesterday.

The bill carries \$2,880,000 for the purchase of the Southern Railway property at Thirteenth street and Pennsylvania avenue. This property is in the Pennsylvania avenue. Anall triangle, within which are to be erected nine or more huge Federal office buildings. The items for three new buildings—the Department of Commerce, the Internal Revenue structures and the addition to the Government Printing Office—total \$3,500,000. The bill also contains an appropriation of \$100,000 for a new postoffice in Alexandria, Va.

The bill, the largest supply measure introduced at this session, carries a total of \$1,063,337,000, of which \$298,387,018 is for the Treasury and \$764,950,042 for the Postoffice Department. Another local item in the bill calls for an appropriation of \$126,150 to pay for the use of several floors in the National Press Building by the Bureau of Internal Revnue.

Bureau Personnel Hft.

The amount asked for the Bureau of Engraving and Printing this time is about \$800,000 less than the last appropriation. This is due to the proposed reduction in the size of paper currency. As a result of the appropriation cut, the personnel of the bureau will have to be reduced.

For the wages of plate printers in For the wages of plate printers in the bureau, the bill calls for a total of \$1,634,600, as compared with \$1,888,000 in the last appropriation bill. For the salaries of other employes, it calls for \$3,111,700, as compared with \$3,659,500 in the last bill.

Alvin W. Hall, director of the bureau,

Alvin W. Hall, direcotr of the bureau, said yesterday that he was not ready to estimate the number of employes that would be dropped. So far as posible, he said, he would try and effect the necessary economy by leaving vacanies unfilled rather than dismissing

employes.

The bill raises the cost limitation on the new Department of Commerce Building from \$10.000,000 to \$17.500,-000. The cost limitation on the new Internal Revenue Building is raised from \$7.950,000 to \$10,000,000.

Stirred by Building Delay.

A copy of the hearings on the ap-propriation bill, which was made public vesterday, showed that members of the House appropriations committee are becoming extremely impatient with the Treasury Department for not making greater progress with the Federal build ng program.

Turning to Supervising Architect
Wetmore, of the Treasury Department,
Representative Madden, chairman of Freeman Addresses Dinner committee, said:

"When are you going to commence work on any of these buildings?" work on any of these buildings?"
Wetmore explained that the delay in the case of the Internal Revence Building was caused by condemnation proceedings and by the tardy removal of the farmers produce market, which is on the Interior Building site.

He told the committee that work was about to begin on the Internal Revenue Building and that work on the Commerce Building would begin about the end of May.

Girl Pleads Guilty

The girl, who was brought back to this city from Warrenton, Va., on January 31 by Detectives Keck and Thompson, broke down and sobbed when she was arraigned. She is alleged to have passed checks bearing the alleged forged signature of her cousin. Miss Ruth E. Dodd. of Phillips Terrace Apartments. When she was originally arrested she was charged with forgery, but later the charge was changed to one of passing worthless checks, a procedure which will keep the defendant out of the Criminal Courts.

Rent Law Provision In Court of Appeals

The Court of Appeals yesterday took

The Court of Appeals yesterday took under advisement arguments for and against the contention that the hotel provisions of the old Ball rent law did, not die when the law itself became inoperative. The hotel provision required the owners or managers of hotels to post the rates for rooms in a conspleuous place in the rooms.

The District government undertook to prosecute Ralph McKee, of the Metropolitan Hotel, for failure to post rates, but failed to secure a conviction because the Police Court determined that the rent law was entirely and completely inoperative. An appeal was taken by the corporation counsel. A decision is expected next month.
